Post-Break Chemistry Review

1. Shade in the **metals** on the periodic table:

2. Shade in the **nonmetals** on the periodic table:

- 3. Draw dot diagrams for the following elements:
 - (a) Lithium

(e) Neon

(b) Antimony

(f) Beryllium

(c) Aluminum

(g) Germanium

(d) Chlorine

- (h) Oxygen
- 4. Explain the "octet rule" for elements

5. Fill in this table:

Element	Dot Diagram	Gain or lose?	How many?	Charge	Symbol
Sodium					
Chlorine					
Neon					
Strontium
