

Name: _____

Period: _____

Wed, Feb 4 (Pd 6) / Thu, Feb 5 (Pd 1, 4)

Warmup

1. What are the two categories of work?

2. If the work done on an object is negative, what might that mean? (There may be more than one correct answer; list as many answers as you can think of.)

3. In each of the following situations, indicate whether work is *positive*, *negative*, or *zero*.
 - (a) A car accelerates from 0 mph to 60 mph over a distance of less than a mile.
 - (b) A box sliding across a floor slows down because of friction.
 - (c) An Olympic weightlifter holds 500 pounds of weight above his head.
 - (d) A mother lifts a child to her shoulders.
 - (e) The earth's gravity pulls the moon in a circle.
