

Name:

Period:

Wed, Apr 8 (Pd 6) / Thu, Apr 9 (Pd 1, 4)

Warmup

1. Write down what each of the symbols in this equation means:

$$v = f\lambda$$

2. What is frequency and what is its unit?

3. Calculate the frequency of a wave moving 25 m/s with a wavelength of 0.72 meters. Make sure to show the equation you're using.
