

Honors Physics Spring Semester

Units Covered

- Momentum
- Rotation
- Simple Harmonic Motion
- Waves
- Electricity
- Magnetism
- Optics (*time permitting*)

Tests and Quizzes

The first two chapters (Momentum and Rotation) will continue as last semester, with open-note HW quizzes, tests, and test corrections.

Starting with Simple Harmonic Motion, the course will consist of shorter units, and the methods of evaluation will change accordingly: There may be a few HW quizzes, but they will not necessarily occur every unit. Also tests will be shorter. Because of this, *test corrections will not be offered for Ch 11A onward.*

Methods of Evaluation

Your pre-exam grade will be based on the methods of evaluation shown below. Your overall class grade will consist of the pre-exam grade (85%) and the final exam grade (15%).

1. Homework (30%)

- Homework plays an important role in helping you understand the material. Therefore, it is important that it gets done in a timely manner!
- Homework is accepted for full credit until Test Day. **There will be a 50% penalty for homework turned in after test day.** Homework will not be accepted any later than the Test for the following unit.
- There is guaranteed to be open-note HW Quizzes for the first two chapters.

2. Labs/Projects (30%)

- Late labs will be assessed a penalty of 10% per school day (whether or not class meets) up to 50%. Labs that are more than a month late will not be accepted.
- **There is a research project in the Spring Semester. If you complete your research project late, it is immediately assessed a 50% penalty.**

3. Tests (40%)

- Each chapter will end with a quiz or a test.
- Tests corrections will be available for the first two tests. **You are only eligible for test corrections if you've done your homework** ($\geq 80\%$ in the HW category).
- All tests given after Rotation will be shorter "mini-tests," which will not be eligible for test corrections.

New School and Class Policies

- The School Expectation is now that ID's must be worn at all times, even in the classroom.
- Bathroom passes now need to be handled using the SmartPass system. The purple passes will no longer be available.
- Phones and earbuds need to be put away in your backpacks. This semester, I will be writing detentions for phone use during class.
- My preferred day to stay after school for tutoring and extra help is Monday. Please contact me ahead of time get on my schedule.
