

Name:

Period:

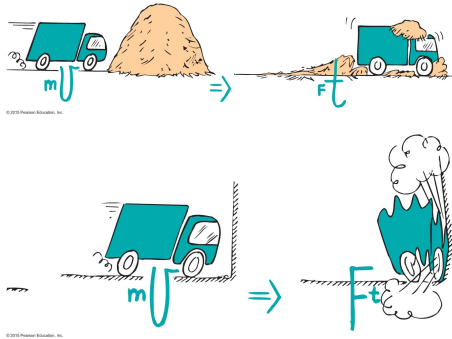

Wed, Jan 7 (Pd 1, 6) / Thu, Jan 8 (Pd 4)

Warmup

1. What do each of the symbols in this equation stand for? This equation represents the *impulse-momentum theorem*

$$F \cdot \Delta t = \Delta p$$

2. Use both the image below and the impulse-momentum theorem (the equation above) to explain why the truck that hits the hay bail has less damage than the truck that hits a brick wall.
