D

Equations

$p \equiv mv$

$J \equiv F\Delta t$

$\Sigma F = \frac{\Delta p}{\Delta t}$

$\Sigma p = \Sigma p'$

$v_A + v'_A = v_B + v'_B$

$x_{CM} = \frac{\Sigma m_i x_i}{\Sigma m_i}$

Instructions

1. Put your name on this page and **bubble in your 8-digit Student ID number** (400....).
2. Tear off this front page.
3. Put your name on the top of the rest of the packet.
4. The problems are on the first two pages, the next page contains the bonus problems, and the next page contains all of the multiple choice.
5. You may write on anything, but I'm only grading this page and the first three pages of the rest of the packet.
6. The equations are provided above.
