
Task #1

(a) $5.3 \text{ m} = ? \text{ cm}$

(c) $5.3 \text{ km} = ? \text{ mm}$

(b) $5.3 \text{ km} = ? \text{ cm}$

(d) $5.3 \text{ cm} = ? \text{ mm}$

Task #2

(a) How many seconds are in 1 hour?

(b) How many milliseconds are in 1 hour?

Task #3

(a) $15 \text{ g} = ? \text{ kg}$

(b) $2.3 \text{ kg} = ? \text{ g}$

(c) $17,000 \text{ mg} = ? \text{ kg}$

Task #4

Express each of these measurements using metric prefixes in ways that are less awkward.

(a) $5\,000\,000 \text{ g}$

(b) 0.0023 s

(c) $0.000\,000\,45 \text{ m}$

Task #5

Estimate how many seconds there were in Summer Break. Show your work.
