
Task #1

You are driving in a car traveling at 18 m/s. You accelerate at a constant rate of 1.3 m/s^2 until you get up to a speed of 24 m/s. What distance do you cover when you do this?

Task #2

A train is travelling at 73 m/s. The engineer applies the brakes, which cause the train to decelerate at a rate of 1.8 m/s^2 .

- (a) How much time will it take the train to stop?
 - (b) What distance will it take the train to stop?
-

Task #3

You drop an object from the top of a building that is 10.6 m tall. How much time will it take the object to hit the ground?

Task #4

You throw a ball straight up in the air at a velocity of 17 m/s. What is the maximum height the ball will reach?
