

Name: _____

Period: _____

Wed, Sept 9 (Pd 6) / Fri, Sept 11 (Pd 1, 3)

Warmup

The girl in the picture throws the ball. At point *A*, it leaves her hand with a velocity of $+7\text{ m/s}$. Right *before* she catches it at point *C*, what is the ball's velocity? Explain in a few complete sentences why this is the case.
